How to Log in to EpicCare Link

This guide includes information to help you log in to EpicCare Link, including browser requirements and how to log in.

How do I log in?
1. Open your web browser and go to https://epic-ecl.trinity-health.org/EpicCareLink/common/epic_login.asp
2. Enter the user ID and temporary password that you received for EpicCare Link
3. You will be prompted to change your password and enroll in two factor authentication
   - Follow the on-screen prompts to set these up
4. Search for your department by Region you are associated with
   - See notes below if your region is not defaulted
5. Once you are logged in, a Terms and Conditions page will appear
   - Read and acknowledge the agreement to continue to EpicCare Link

Required: Setting up Challenge Questions
6. Once you are logged in, go to Menu, Settings, Challenge Questions
   - You will need to authenticate yourself by first entering your password
   - You are required to set up 5 questions and answers
   - When re-setting your password, you will be prompted to answer 2 of the 5 questions
How to Log in to EpicCare Link

- To save your Questions and Answers, click Accept

Next Steps After Logging In

7. Verify your demographics
   - Menu, Settings, My Demographics
   - Update, if needed
8. If you are a Site Coordinator, please verify your facility demographics, as well
   - Admin, My Facilities
   - Update, if needed
9. Set up your notification preferences
   - Menu, Settings, Notification Preferences
10. Set up your Event Monitor Settings
    - Menu, Settings, Event Settings

Important Notes Regarding Log In Activities

- With two factor authentication, some phone carriers will disenroll you automatically from receiving text notifications. If you chose “text” as your two factor authentication method and do not receive the code within 30 seconds, please text TRINITYMYC to 622622, and try again. This will opt you in to receive these text notifications, which is our recommended method. You may need to do this again if you get a new phone or carrier.
- Upon logging in, you may check the box "keep me logged in", which will save your two factor authentication for 24 hours. You will still need to log in with your user name and password but will not need the authentication code after your initial log in. After 24 hours, you will have to authenticate again
- If you have dual access to both Hyperspace and EpicCare Link, and attempt to log into both systems, you will receive a “log in fail error.” To prevent this error, please do not log into both systems at the same time.
- Your department should always be the Region in which you are associated with, which should automatically default. If it does not, please search for one of the following:
  - 9999900000263 TH LINK PA TRINITY HEALTH MID-ATLANTIC EXTERNAL COMMUNITY
  - 9999900000264 TH LINK DE TRINITY HEALTH MID-ATLANTIC EXTERNAL COMMUNITY

How do I log out?
To maintain patient confidentiality, you need to log out when you are done working or have to leave the computer for any reason.

- Click “Log Out” in the top right corner of the application
Browser, system, and connection requirements
You must use one of the following Internet browsers to access EpicCare Link:

• On the Windows operating system:
  o Internet Explorer version 11
  o Mozilla Firefox version 78 or later
  o Google Chrome version 88 or later
  o Microsoft Edge version 88 or later

• On the Macintosh operating system:
  o Firefox version 78 or later
  o Chrome version 88 or later
  o Safari version 14 or later

EpicCare Link and Tapestry Link can also be accessed by iPads running iOS 14 or later using the Safari browser and Android tablets using the Chrome browser. The native Android browser and other third-party browsers are not supported. The Chrome browser on iOS is also not supported.

To function properly with your web application, a browser must be able to accept cookies, and it must be enabled to run JavaScript. These are enabled by default when you install the supported browsers, so they're supported unless you have explicitly disabled them.

Password Creation Tips

• Passwords must be unique per individual
• Passwords must be at least 15 characters, including numbers, letters, and special characters
• Do not use single dictionary words, especially including Trinity, Spring, Summer, Fall, Winter, Names of Months, etc.
• Consider phrases like:
  o Erika’s Password 15 Reset
  o T0getherCar3 pw 4 @Susan

Note: If you are unable to reset your own password, this may be due to a block on your account. Please contact your administrator/coordinator at your facility for assistance.
