

Todd Nixon, MD

Cardiothoracic Surgery

Todd Nixon, MD is Chief of Cardiothoracic Surgery at St. Mary Medical Center. Dr. Nixon specializes in heart, lung and vascular surgery. He established the minimally invasive mitral valve surgical program and helped implement the transcatheter aortic valve replacement surgery (TAVR) program at St. Mary. He is certified by the American Board of Thoracic Surgery and the American Board of Surgery and is a member of the Society of Thoracic Surgery.

Dr. Nixon's other areas of expertise include open and minimally invasive mitral valve repair and replacement surgery, aortic valve surgery and coronary artery bypass surgery. He also specializes in the open repair of ascending aortic aneurysms and aortic dissections, including endovascular repair of thoracic and abdominal aneurysms. He performs thoroscopic lung surgery and advanced, complex lung resections.

To make an appointment with Todd Nixon, MD, please call 215-752-3330.
