About Vascular Surgery Holme

As a member of the Trinity Health Mid-Atlantic Medical Group, Vascular Surgery Holme offers comprehensive vascular care for patients that emphasizes both prevention and advanced intervention. The team at Vascular Surgery Holme provides expert care for patients for a wide range of vascular conditions, both acute and chronic, such as peripheral artery disease, varicose veins, aneurysms, and carotid artery disease. Minimally invasive endovascular procedures, and traditional surgical interventions are tailored to each patient's needs. Our emphasis is on patient education, prevention, and follow-up care to ensure the best possible outcomes.
