

Osteopathic Graduate Medical Education Mission Statement

- *Provide an environment where Osteopathic residents can enhance patient care by providing adjuvant OMT to patients in an inpatient and outpatient environment
- *Provide an education program where Osteopathic residents have the opportunity to further their knowledge of the use of OMT in all disease conditions
- *Provide Osteopathic medical students a clinical environment for which to apply their osteopathic skills learned in the classroom.
- *Give Osteopathic residents the opportunity to conduct research in osteopathic techniques for the betterment of patient care
